

Marta Candeias
Pre-Award, IST-ID

BACKGROUND

In the last 11 years I have been a Science, Technology and Innovation Manager following European and national research and innovation policies and European Research and Innovation funding programs (FP7, H2020 and HE).

My work was to represent Portugal and its research and innovation priorities (as well as being the National Contact Point) in Program Committee Meetings with the European Commission for the European Framework Program for Research and Innovation.

I have contributed to Part 2 of the PERIN Strategy 2021-2027 regarding Industry section of Cluster 4 – Digital, Industry and Space, coordinated the set-up of FCT's Research and Innovation Agenda "Indústria e Manufatura" and supported the set-up of AI Portugal 2030 – Artificial Intelligence National Strategy.

Tips for successful Horizon Europe proposals preparation

Abstract

The success of a proposal depends both on the quality of the project itself and the quality of its presentation in the proposal. We need to explain our good ideas to a panel of reviewers in a way that will convince them that our work is relevant and that it will likely succeed.

This workshop aims to contribute to write a successful research proposal, addressing specific points that are valued in a consortium application and that can make the difference in the preparation of an excellent proposal, by focusing on tips on how to respond to the application form and evaluation criteria.

At the end of the workshop, project evaluators will be asked to share their experience in the evaluation of proposals from competitive programs.
